

FW: CO2 Pilot area Map David Spencer to: Ray Leissner

04/23/2010 10:57 AM

Ray - Per our conversation today, here is the map of the first pilot area for CO2 at North Burbank (T27N-R5E). Also just to let you know I am going to go ahead and send the first single well package for this area in next week. (This will satisfy my managements need to feel we are moving on this.)

I will also look into doing an Area Permit on this, as it would solve a lot of administrative problems for both EPA and Chaparral as operator. Look forward to working with you on this project.

David P. Spencer Chaparral Energy, L.L.C. Manager Regulatory Affairs Phone: 405-426-4397
